## SIZ İSTEYİN YETER...

1928 yılında Hamdi SAR tarafından kurulan SAR TİCARET firması ile bir süre gıda, hırdavat ve nalburiye sektörlerinde yer edinerek ticari faaliyetine başlayan SAR ailesi, plastik ve ambalaj sektörünün yaygınlaşması ile 1970'li yılların başlarında polietilen film, sera örtüsü ve polietilen naylon poset satışı ile şirketin bugünkü faaliyet alanına ilk adımını atmıştır. 1994 yılında şirket bünyesindeki değişikliklerle beraber SARPLAST Plastik Sanayi ve Ticaret Limited Şirketi ismini alarak plastik ve ambalaj sectorundeki konumunu genişleterek sürdürmüştür.

Yeniliklere açık, müşteri memnuniyetini ön plana koyan tecrübeli kadrosuyla bölgemizde ambalaj bosta olmak üzere ihtiyac maddeleri üzerine ticari faaliyetini sürdüren şirketimiz

- ⇒ Esnek ve dinamik yapısı ile
- ⇒ Teknolojik gelişmeleri takip ederek
- ⇒ Güçlü marka sadakı icersinde
- ⇒ İhtiyacınıza uygun çözümler sunarak,
- ⇒ Tam zamanında teslim ederek

*“Sınırsız müşteri memnuniyetini” hedefler.*

## SINCE YOU DEMAND...

SAR Family had started its retail business selling food-stuffs and hardware products as SAR Ticaret, founded by Hamdi Sar in 1978. Sar Ticaret changed its activities to become an wholesaler in the plastic and packaging sector when the sector started to become popular in 1970. After moving in to the plastic and packaging sector, Sar Ticaret started selling various types of polyethylene films, greenhouse films, polyethylene bags, ropes, and other packaging goods.

In 1994, along with other changes in the company, the name of the company was changed to SARPLAST Plastik Sanayi ve Ticaret Limited Şirketi. Since then Sarplast has been expanding its business in the plastic and packaging sector.

With its highly experienced staff, Sarplast is determined to achieve the highest customer satisfaction in the industry by vigorously adapting the changes in technological advancements, appreciating brand loyalty and recognition, emphasizing on time delivery and shipping, and presenting solutions that are tailored to the need of the customer.

### SERA ORTULERI

Tarimsal film turleri arasinda en onemli yeri sera ortusu almaktadır. Sera ortulerinin ozellikleri kullanım amaclarina, yere ve kullanicilara gore degisim gostermektedir. Buna bagli olarak sera ortusunda kullanılan katkı maddeleri ve kalınlığı önem kazanmaktadır.

Kullanım sürelerine göre 9 aylık, 12 aylık, 18 aylık, 24 aylık, 30 aylık ve 36 aylık olmak üzere UV katkılı ve katkısız sera ortuleri mevcuttur.

Musterilerimizin isteklerine göre değişik ebat ve kalınlıklarda sera ortulerimiz mevcuttur.

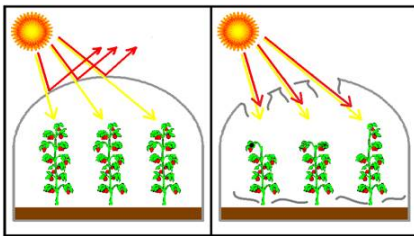

### GREENHOUSE COVERS

Greenhouse covers are a very important component of agricultural film segment. The properties of these products vary according to intended use, location and users. Therefore, the additives used in greenhouse cover films and the thickness of the film are quite important.

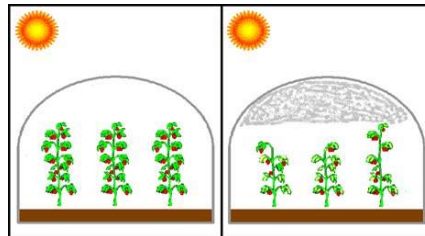

Depending on the intended use, coex greenhouse covers of 9, 12, 18, 24, 30 and 36 months are available in our product range.

Greenhouse films in different size and thickness are provided according to customer needs.

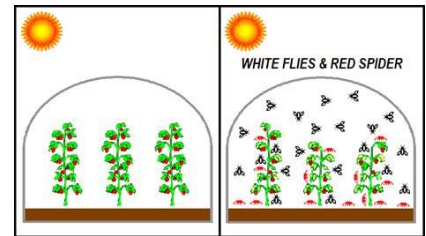

UV EFFECT

ANTIBUG EFFECT

ANTIVIRUS EFFECT

UV KATKILARI: Gunesten gelen UV isinlari, PE molekulunun kimyasal bagini bozarak, plastik filmin vaktinden once bozulmasına ve sra ortusunun omrunun kismasına sebep olur. UV katkileri, bu etkileri gidererek ortunun dayanıklılığını artırır.

IR KATKILARI: Infrared isinlari bunyesinde hapsederek sera icindeki isi kaybini en aza inmesini saglar.

EV KATKILARI: Sera ortusune, gece gündüz isi farklılığından meydana gelecek genleşmelere karşı esneklik kazandırır.

ANTIFOG : Urun yüzeyinde ısı yansımalarına sebep olan ve filmin şeffaflığını azaltan su damlacıklarının oluşumunu engeller.

ANTIBUG: Antifog katkisinin yan etkisi olarak ortaya çıkması olası sislenme probleminin önlenmesinde kullanılır.

### MALC FILM

Ozellikle damlama sulama yapılan seralarda ve acik arazi ekimlerinde, toprak yuzeyinden su buharlamasi ve nem kaybini onleyerek, sudan, gubreden ve ilactan tasarruf yaparken topragin canliligini, sicakligini ve nemini koruyarak bitkinin cabuk ve saglikli gelismesini saglamak amaciyla mulch film kullanilmasi gerekir.

### MULCH FILM

Especially used in greenhouses using drip irrigation systems and open field cultivation, to protect evaporation of water and moisture loss from land surface, while savings from water and fertilizer, provides soil's vitality, temperature and humidity in decent level to develop plants quick and healthy way.

### SILAJ STREC

Ozellikle buyukbas hayvanlarin kisin taze ot ihtiyacini karsilamak amaciyla elde edilen slaji muhafaza etmek icin kullanilan esnek filmlerdir. 25 mikron kalinliginda 75cm/1500m ve 50cm/1800m ebatlarinda degisik renk secenekleri mevcuttur.

### SLAGE STRETCH WRAP

This is the type of stretch used particularly for the preservation of cattle silage which is prepared as a nutrition alternative of grass in winter. The thickness of film is 25 micron and it's available in dimensions of 75cm/1500m and 50cm/1800m. Silage stretches wrap is available in different colors.

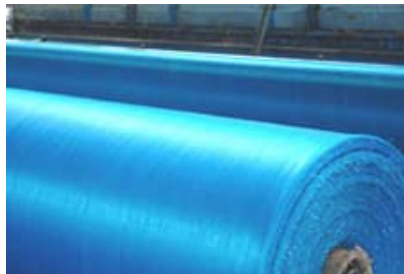

### PE DOKUMA BRANDA

Urunlerin dis etkenlerden muhafazasi icin degisik renk, ebat ve ozelliklerde uretilen dokuma branda cesitlerimiz ebatli ve rulo sekliyle mevcuttur.

### PE TARPAULIN

Provided in different color, size and type woven tarpaulins to protect crops from negative atmospheric conditions and damages.

## GOLGELIK

UV katkisi, özel hammadde bileşimi ve dokuma özelliği ile dayanıklı olup, uzun yıllar kullanılabilir, ekonomiktir. Golgeleme yapılan alan üzerinde eşit golgeleme yapar ve güneşin zararlı ışınlarından korur.

## SHADE NETS

Ingredients of shade nets, UV additives, special raw material composition and woven properties are to provide economic long term usage. It helps to generate equal shading capacity and to protect from hazardous sun lights.

## SULAMA HORTUMLARI

PE hammaddesinden yapılan basıncsız sulama hortumudur. Serilmesi ve toplanması kolaydır. 8cm ile 44cm arasındaki enlerde ürünler mevcuttur.

## IRRIGATION HOSES

Non-pressurized irrigation hoses which made by polyethylene raw material. Easy to fold and unfold. Provided in sizes from 8cm to 44cm widths.

## FIDE TORBA VE VIYOLLARI

PE hammaddesinden yapılan ürün fidelemek maksadı ile kullanılan torba ve değişik göz adetleri ile hazır viyollerdir. Suyun akışını sağlamak için delikleri vardır. Değişik boy ve hazne genişlikleri mevcuttur.

## SEEDLING BAGS AND VIOLS

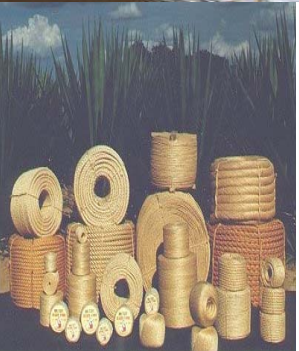

Polyethylene bags and ready made viols that includes different amount of seeding holes are used to cultivate yields. Small holes below bag and viol helps to fluid of water. Different sizes are provided.

## TARIM IPLERİ

Değişik gramaj, kalınlıklarda suni ve doğal hammaddelerden yapılan tarımsal ambalajlama, sabitleme ve taşıma işlemleri için kullanılan güneşe dayanıklı iplerdir.

## AGRICULTURAL ROPES AND TWINES

Manufactured by natural or artificial raw materials with resistant to harmful light from sun, within various weight and thickness, to use in agricultural packaging and handling operations.

### STREC FILM

Ürünleri sıcak, soğuk, yağış, toz ve kir gibi dış etkenlerden korur. Dış yüzeyi parlak ve kaygan olan ürün, toz ve kir tutmaz.

Paletlerin birbirine yapışmasını önler. Saydam, hafif ve ekonomiktir, her türlü hava koşullarına dayanıklıdır. Her türlü ürünün paketlenmesinde kullanılabilir.

Esnekliği sayesinde; sivri ve keskin köşelerden etkilenmez, ip veya çembere gereksinim duymaz, şişeli mamüllerin ambalajında emniyetli ve ekonomiktir. Değişik en, boy ve kalınlıklarda ürünlerimiz mevcuttur.

### STRETCH FILM

Stretch films keep the product safe from external impacts like heat, cold, rain, dust and dirt. They have glossy and slippery outer surfaces onto which dust and dirt cannot cling.

Stretch films prevent sticking of pallets to each other. They are transparent, light, economic and durable to all weather conditions. They can be used to pack all kinds of products.

Thanks to its flexibility; the stretch film is not affected by protruding and sharp corners. There's no need for ropes or straps, it's safe and cheap to use in packing bottled products. We supply stretch films in different width, length and thickness.

### ENDUSTRIYEL HALAT

Kullanım amaçlarına göre polyester, nylon, jüt, kendir ve sisal halatlarımız mevcuttur. Değişik direnc ve kavrama, taşıma özellikleri ile endüstriyel amaçla kullanıma uygundur.

### INDUSTRIAL ROPE

Provided polyester, nylon, jute, hemp and sisal ropes according to purpose of use. Suitable to use in industrial area with the different strength, grip and carrying specifications.

### BALONLU NAYLON

İki adet polietilen film tabakasının arasına balonlu bir ara kat oluşturularak lamine edilen bir ambalaj malzemesidir. Böylelikle sarıldığı ürünlerin etrafında bir hava yastığı vazifesi görerek ürünlerinizin her türlü hava şartları ve darbelerden korunmasını sağlar.

### BUBBLE WRAP ROLLS

Packaging material which is formed by two polyethylene film layer laminated between bubble form layer. Thus, it behaves as air bag which covers the goods, and protects from air condition and outer impacts or pressure.

### SHRINK FILM

Shrink Filmler, ısı büzülme ile ürünlerimizin en ekonomik ve emniyetli bir şekilde ambalajlanmasını ve sevkiyatını sağlar. Özellikle mesrubat, cam, seramik ve metal gibi endüstriyel ürünlerin kullanımında yaygındır. Değişik en, boy ve kalınlıklarda ürünlerimiz mevcuttur.

### SHRINK FILM

Shrink Films have the property of thermal shrinkage, making it possible to pack and deliver products in the most economic and the safest way. They are particularly used to pack industrial products such as beverages, glass material, ceramics and metals. We supply shrink films in different width, length and thickness.

### AMBALAJ KOPUK RULO

Ambalaj levhaları alçak yoğunluk polietilen'den üretilen, kapalı hücre yapısına sahip malzemelerdir. 1-10mm et kalınlıklarında tek parça rulolar halinde üretilmektedir. Anti-statik özelliktedir ve toz tutmaz. Mobilya, cam, otomotiv, metal, elektronik sanayi bazı kullanım alanlarıdır.

### PACKING FOAM ROLL

Materials that manufactured by low density polyethylene with closed cell structure. Production of one piece roll has 1-10mm wall thicknesses, also has anti-static and dust repellent specifications. It can be used in furniture, glass, automotive, metal and electronic industries.

### AMBALAJ KOPUK PROFİL

Ambalaj profilleri alçak yoğunluk polietilen'den üretilen farklı form, şekil ve ebatlarda kapalı hücre yapısına sahip malzemelerdir. Darbe dayanıklıdır, toz tutmaz. Anti-statiktir.

### PACKING FOAM PROFILE

Materials that manufactured by low density polyethylene with closed cell structure in different form, design and sizes. Stroke protective, dust repellent and anti-static are some properties.

### SEFFAF PLASTİK ORTU

Ürünlerin hava koşulları, darbe ve dış etkilere karşı muhafazasında kullanılan değişik en, boy ve kalınlıklarda üretilen seffaf polietilen malzemelerdir. Mobilya, dekorasyon, bakım, boya, otomotiv, metal sanayi bazı kullanım alanlarıdır.

### CLEAR PLASTIC COVER

Produced in clear polyethylene material in different size and thickness to protect harvest from weather conditions, stroke, and enclosure against external influences. It is used in furniture, decoration, maintenance, painting, automotive and metal industry.

### IS ELDIVENI

Is guvenligi ekipmanlarından olan eldivenler, kullanılan ortam sartlarına gore degisik asınma, kesilme, yırtılma ve delinme dirençleri göstermektedir. Çalışılan ortama uygun özelliklere sahip eldivenin temini verimlilik için önemlidir.

### WORKING GLOVES

Gloves, that work health and safety equipment, have different tear, cut, puncture and abrasion resistance depends on conditions and type. Important to choose suitable gloves for situated working condition while improving efficiency.

### ENDUSTRIYEL BANT

Ambalajlama, birleştirme, sabitleme gibi amaçlarla degisik sanayi dallari için teknik bantlarımız müşterilerimizin taleplerine sunulmuştur.

### INDUSTRIAL TAPES

Provided technical and standard tapes for the customer in different industrial areas for packaging, merging and fixing duties.

### AMBALAJ SERIDI

Tam ve yarı otomatik cemberleme makinalari için plastik seritlerimiz mevcuttur. Her türlü sanayide paketleme amaçli kullanılan cemberler kalınlıklarına göre direnc gösterir.

### PACKING STRAP

Plastic stripes are available for the Full and semi-automatic strapping machines. It is used in all industrial areas to pack box and carton, provides variable resistance levels according to thickness of strip.

### ISIL YAPISTIRICI

Plastik malzemelerin isi yardımıyla yapıştırılarak kapatılması amacıyla kullanılan paketleme makinalaridir. Degisik ebat ve kalınlıktaki polietilen ve polipropilen ürünlere uygulamak için farklı özellikte ısı yapıştırıcı makinalari mevcuttur.

### IMPULSE SEALER

Packaging machines that are provided to seal plastic layers by using electrical heat. There are variable impulse sealer types for the application of different size and thickness of polyethylene and polypropylene products.

### PVC RULO

PVC malzemenen yapılmış seffaf rulolardır. Standart kalınlık ve enlerde bulunmaktadır. Degisik sanayi kollarında ürünü ve yüzeyi korumada kullanılır.

### PVC ROLL

Rolls are made of clear pvc material, provided in standard thickness and sizes. It can be used in variable industrial areas to protect goods and surfaces.

### AMBALAJ STREC FILM

### STREC FILM

Kucuk gozenekleri ile surekli olarak gidanizin nefes almasini saglayan strec film buzdolabinizda, derin dondurucunuzda kokularin birbirine karismasini onler, gidalarin tazeligini daha uzun sure korur. Kendiliginden yapisma ozelligi sayesinde en ucuz ve en kolay sekile gidalarinizin ambalajlanma sorununu giderir.

### STRETCH FILM

Stretch film, with the help of its tiny pores that enables air to circulate in and out of the food plate, keeps your meal fresh and prevents the odors to mix each other within your deep freezer. With its particular self-sticking ability, stretch film is the easiest and the cheapest alternative to store your food.

### ALUMINYUM FOLYO

Kaliteli gida folyolari, mutfaklarin, restoranlarin, bufelerin, sarkuteri dukkanlarinin, super marketlerin ve catering firmalarinin kullanimina sunulmaktadir. Folyolarimiz firininizin ve buzdolabinizin vazgecilmez dostudur. Firininizin temizligi ve pisirdiginiz yiyeceklerle dogal lezzeti icin tercih edilmelidir.

### ALUMINIUM FOIL

Quality aluminum food foils are ready to use for the order of restaurants, super markets, catering firms and even the individual kitchens. Aluminum foil is an ultimate friend of your oven and refrigerator. It helps to keep ovens clean and keep your valuable meals in natural tastes.

### PISIRME KAGIDI

Yemeklerinizin ve pastalarinizin tepsi ile temasa gecmeden saglikli ve temiz bir sekilde pismesine yordimci olan yagli kagitlardir. Kagida kayganlik hissini veren, gidayla temasi tamamen saglikli silikonize formül, gidanın pisirme esnasinda kagida yapismamasini saglar. Domuz yagi icermez, sagliklidir.

### BAKING PAPER

Greasy papers that help to keep trays and oven clean, provides to cook cakes and meals without touching trays in oven. Greasiness feel is given by silicone formula which helps not to stick meal on paper is healthy in contact with food. It does not include pork fat.

### FIRIN TORBASI

Gidalarin vitamin, tat ve kokularini kaybetmeden kendi buharinda pisirilmesini saglayan torbalardir. 200°c'ye kadar dayanir, gida ve tepsiye yapismaz, yag ilavesi gerektirmez, pisirme suresini kisaltir.

### OVEN BAG

Oven bags provides to cook foods in their own steam while keeping their vitamin, odor and taste. Can be used until 200°c, does not stick on tray or meal, not require additional oil, and also decrease time of cooking.

### BUZDOLABI TORBASI

Kilitli ve kilitli olmayan seçenekleri ile buzdolabi torbalarımız her türlü gidanizi daha sonradan kullanmak üzere hava almadan uzun süre buzdolabında ve dondurucunuzda saklamaya yarar. Pratik, saglikli ve dayaniklidir.

### FREEZER BAGS

With zipper and plain options, blocking air transfer, freezer bags helps to keep your food, vegetable and meals fresh in deep freezer as to be used later on. It is practical, healthy and durable way to store.

### COP TORBASI

Geri donusturulebilen polietilen hammadde kullanılarak uretilen torbalarimiz yasam alanlarina gore farkli ozelliklerde ve ebatlara sahiptir. Su sizdirmeyan, saglam ve dayanikli olan urunumuz cevrenin temiz tutulmasına yardimci olur.

### GARBAGE BAGS

Garbage bags, produced by using pure or recycled polyethylene raw material, have various size and thicknesses according to user requirements and needs. Water-resistant, strong and durable products help to keep environment clean.

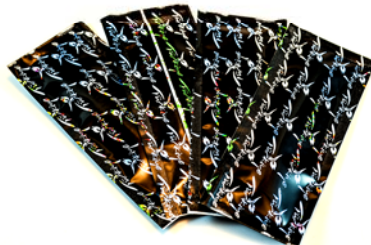

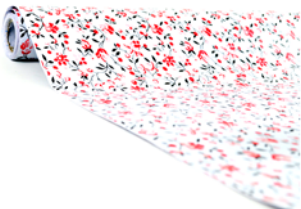

### BUZ TORBASI

Klasik buz kaplarindan daha az yer kaplayan torbalarimiz Pratik bir sekilde etrafi kirletmeden kolay buz elde etmenizi saglar.

### ICE BAG

Bags, that space less area than classic ice molds, helps to provide ice faster, easier and without any dirtiness around.

### STREC FILM

### MASKE

Polipropilen dokunmamamensucattan 1,2 ve 3katli sekilde uretilmis olan yuz maskeleri, plastik kapli yumusak burun teli, yuvarlak lastikli ultrasonik dikisi ve hava gecirgenligi ozelligi ile saglikli soluma saglar. Anti-alerjiktir, degisik renk secenekleri mevcuttur.

### DISPOSABLE MASK

Hygienic product, disposable mask, that manufactured from polipropilen non-woven material, has 1,2 and 3 layers, plastic covered soft nose wire, ultrasonic bonding with round elastic and air permeability properties, helps to make healthy breathing. It is anti-allergic and has different color options.

### AKORDEON BONE

Polipropilen dokunmamamensucattan uretilmis olan sac boneleri, tek lastik ve cift orme lastik secenekleri ile kullanimda kolaylik saglar. Ultrasonik dikisi ve anti-alerjiktir. Lateks icermez

### BOUFFANT CAP

Hair caps, manufactured from polipropilen non-woven material, provides easiness of usability with single or double stranded elastic options. Ultrasonic bonding.

### MUAYENE ELDIVENI/ EXAMINATION GLOVES

Dogal kauçuk lateks hammad-desinden uretilmis olan, iki elde kullanima uygun, steril olmayan, delinmeye karsi direncli eldivenlerdir.

Gloves that manufactured by natural latex , ambidextrous, non-sterile and resistance to puncture

### KOLLUK / SLEEVE COVERS

Bilek ve kol agizlari lastikli, hava gecirmeyen ozelligi ile hijyeniktir, anti-alerjiktir.

Covers with double stranded at sleeve and arm openings, air permeability properties, are anti-allergic and hygienic.

### GALOS

Dis ortamdan toz, kir ve bakterinin ic ortama girmesini engellemek icin giyilen ultrasonik ve overlok dikisli, anti-alerjik, lastikli ayakkabi torbalaridir.

### SHOE COVERS

Shoe covers, which ultrasonik bonding, anti-allergic, rubbery covers. are used to protect places from dust, dirt and bacteria from outside.

### SIVI SABUN

 HIJYENIK TEMIZLIK ICIN KULLANILAN DEGISIK AROMALI SIVILASTIRILMIS SABUNLAR.

**GR** 0.5KG , 2.5KG , 5KG , 6KG GRAMAJLARDA

### LIQUID SOAP

 LIQUEFIED SOAPS WITH DIFFERENT FLAVOURS TO USE FOR HYGENIC CLEANING.

**GR** WEIGHTS: 0.5KG , 2.5KG , 5KG , 6KG

### ODA KOKUSU VE MAKINASI

 AROMALI GAZ

 AYARLANABILIR SURELI ODA KOKU SPREYI.

### KIRTASIYE MALZEMELERİ

Ofis, ev, okul ve sanayide değişik amaçlarla kullanımına ihtiyac duyulan kirtasiye malzemelerini temin etmekteyiz.

### STATIONARY ITEMS

All type of stationary items provided to be used in office, house, school and industry needs.

### MAKET BICAKLARI

Ofis, ev, okul ve sanayide değişik özelliklerdeki ürünlerin kesilmesinde kullanılan kesicilerdir. Kesilecek malzemenin sertliğine göre uygun direnc ve kapasitedeki ürün temin edilir.

### CUTTERS

Cutters in various features, can be used in office, school, home and industrial needs. Depends on characteristic of object to be cut, knives are provided.

### KALEMLER

Ofis, ev, okul ve sanayide kullanılan her cesit kalemi icerir. Her turlu zemin uzerine uygulanabilen kalemlerimiz degisik uc kalinliklari ve renk secenekleri ile sunulmaktadir.

### MARKERS AND PENS

Includes all type of pen and marker to be used in office, school, home and industry. They can be applied all type of surfaces with different ball size ,thickness and color options.

### BANT VE YAPISTIRICILAR

Hafif kullanimima uygun, kirtasiye amaclı degisik boy ve ozelliklerdeki bant ve yapistiricilardir. Kullanimi kolay, pratik ve degisik kalitelerde sunulmustur.

### TAPES AND ADHESIVES

Tapes and glues, that are suitable to use in light works, and includes various size and features. Easy to use, efficient and different quality options are available.

### SUS VE PAKETLEME MALZEMELERİ

Hediyelerinizin paketlenmesi esnasında kullanabileceğiniz torba, sus aparatları ve seritlerden oluşur. Parlak opp den yapılmış bu sus malzemelerine diler-seniz istediğiniz şekli verebilirsiniz.

### RIBBONS AND PACKING ITEMS

Ribbons, sacks, stars and other gift objects, made with bright OPP materials, can be used to pack of valuable items by making your own design.

### ZIMBA & DELGEC

Masaüstünüzde her an ihtiyaç duyacağınız ofis aletleri ve bunların sarf malzemeleri temin edilir.

### STAPLES & PUNCHER

It can be provided all type of daily use desktop stationary needs and its supplies.

### LABEL DEVICE AND PAPERS

Device that generates price labels to use in super markets or shopping mall. Easy to use, light weight and fast printing advantages.

### ETIKET MAKINALARI VE SARF MALZEMELERİ

Marketlerde ve alışveriş mağazalarında ürünlerin fiyat etiketlerinin oluşturulmasını sağlayan makinalardır. Hızlı, kullanımı kolay ve hafiftir.

### KABLO BAG

Değişik iş sahalarında kullanılan ürünlerin geçici veya kalıcı şekilde bağlanması için kullanılan plastik kablo ve tellerdir.

### CABLE TIES

The plastic or metal cable, used at various industrial areas, that tie products temporary or permanently for different purposes.
